

## **IMPORTANT INFORMATION YOU SHOULD BE AWARE OF BEFORE BOOKING YOUR TATTOO APPOINTMENT**

\*If you suffer from any nervous or anxiety disorders please consider carefully if this is something for you as the process takes a good 6 weeks to be completed and can be an anxious wait as the treatment is not perfected until after healing of the touch up.

Please read through Client History Form to ensure there are no contraindications before booking. If there are any concerns please contact the salon.

### **TATTOO METHODS**

Method 1 – Microblading is used for hair strokes. This technique is done by hand with a small disposable tool which has tiny needles in a row, strokes are etched into the skin and pigment is pushed into the strokes. This is the most natural technique to the best natural looking brows. This method does not last as long as powder/combo brows particularly in high humidity regions.

Method 2 – Digital Tattoo Machine is used for Powder, Ombre and Combination Brows, eyeliner and lip tattoos. You can expect to feel a vibration feel.

### **TREATMENT**

Initial treatment takes about 1-2 hours. Perfection visit can take 1-1.5 hours. Aftercare is explained and an aftercare kit is given to take home.

Children under the age of 18 are not permitted in the room due to WHS laws.

**Please note – I do not allow friends or family in the room during the treatment as this may cause distractions.**

### **BOOKING FEE DEPOSIT** *(Booking fees are accepted via debit or credit card)*

A \$200 deposit is required to secure your appointment. This amount is non-refundable if you cancel your appointment within 48 hours prior to your appointment time

If for some reason you cannot attend your appointment, it is unlikely we can book you in on another day, we unfortunately need to put you on our waiting list, clients who are needing their perfecting sessions will get priority.

### **INITIAL APPOINTMENT PRICE** *(Prices are subject to change at any time)*

Please view prices from our website.

Prices are per website/booking system. All new clients are treated as a NEW tattoo even if you have old tattoo done by another technician.

### **DRUG INTERACTIONS**

If you are using ROACCUTANE, RETIN-A or photo sensitising antibiotics eg: Doxy Cycline and high doses of anti-inflammatory medicine or topical medical creams you cannot be treated until 6 months after you have ceased usage of these drugs. Some antibiotics and anti-inflammatory drugs interact with the tattooing adversely. Please inform the staff at The Beauty Bar BEFORE your treatment date as you may need to be cancelled.

## APPOINTMENT PREPARATION with Topical Creams

**For Brow Appts Only-** Please clean and exfoliate skin before treatment.

Application of Emla is required 1 hour prior to appointment to brows. Emla can be purchased from the chemist. Apply to clean skin and cover your brows with glad wrap secured with a head band or clips. A second numbing agent will be applied during treatment

Wash your hair the morning of or the night before your appointment as you will not be able to wet the tattooed area for 5-7 days after your appointment.

**Lip Appts do not need preparation. This will all be done at your appointment.**

## PREGNANT/BREASTFEEDING

If you are pregnant you will need to provide a medical note from your doctor before you are allowed to be tattooed. Some numbing creams cannot be used during pregnancy and it is important to specify that the numbing ingredients used are Lignocaine 10% and Epinephrine .05%

If you are breastfeeding, you need to be able to pump and express two feeds straight after the treatment due to the anaesthetics in the milk.

## POST APPOINTMENT CARE

Aftercare Creams

We provide Tattoo Aftercare creams to purchase. These creams are applied to the tattooed area after your treatment.

Carrie will also thoroughly go through all aftercare advice with you on the day of your appointment.

## PERFECTING SESSION

A touch up is required to ensure your tattoo is as accurate as can be. You may need two touch ups if you are having your lips tattooed.

Up to 4-6 weeks after initial appointment. Refer to our website for current treatment prices

Everyone's skin takes tattoo pigment differently, because of this many people need touch ups at different stages especially for hair stroke brows as the tattoo does not last as long as a block colour tattoo.

## MAINTENANCE SESSION

**After initial touch up**

Refer to our website for current treatment prices

## TATTOO REMOVAL

Body tattoo – please numb the area 1 hour prior using Emla or numbit numbing cream which can be purchased from your local chemist and then cover with some glad wrap over the top.

Facial tattoo – If you are having brow removal, please numb your brows 1 hour prior and cover with glad wrap.

## ARRIVING ON TIME

If you are more than 10 minutes late to an appointment, you may not be seen. **So please ensure you allow plenty of time to arrive at your appointment 10 mins early please.**

### **CANCELLATIONS**

Please be aware that if you do not give us 48 hours' notice of cancellation your deposit will be forfeited.

### **RIGHT TO REFUSE TREATMENT**

We reserve the right to refuse treatment for any reason.

### **IMPORTANT INFORMATION FOR PREGNANT/ BREASTFEEDING CUSTOMERS**

If you are pregnant you will need to provide a medical note from your doctor before you are allowed to be tattooed. Some numbing creams cannot be used during pregnancy and it is important to specify that the numbing ingredients used are Lignocaine 10% and Epinephrine .05%

If you are breastfeeding, you need to be able to pump and dump two feeds straight after the treatment due to anaesthetics in the milk.

\*If you suffer from any nervous or anxiety disorders please consider carefully if this is something for you as the process takes a good 6 weeks to be completed and can be an anxious wait as the treatment is not perfected until after healing of the touch up.

There are before and after photos and testimonials from customers on my Facebook page at The Beauty Bar Katherine.
